

Ready. Set. Design!

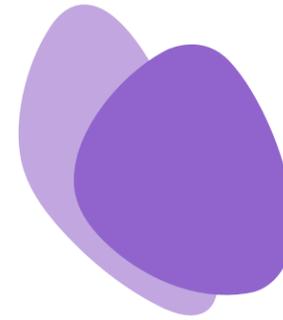

Brand Identity Book

our logo

Primary

The main Flutter logo comes in two elements: the written word and our butterfly badge.

-  PMS 266
-  PMS 264
-  PMS BLK

4c

Flutter

Our ideal logo treatment is our four color logo on white. This treatment is never to be used on anything other than white.

1c

Flutter

If a white background is not available for our main logo, the use of our purple as a background and white logo is preferred.

logo clear space

Keep a distance

We love our brand and want to make sure that it stands out and doesn't get crowded.

improper usage

Never do these

Our logo is special to us and its integrity is important. Do not do the following, or basically anything to change it from its original design.

Do Not change the color

Do Not move the butterfly

Do Not squish the logo

Do Not change the Butterfly color

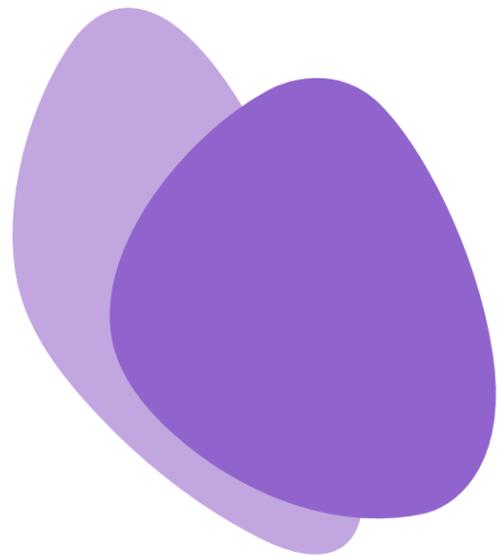

Do Not change the size of the Butterfly

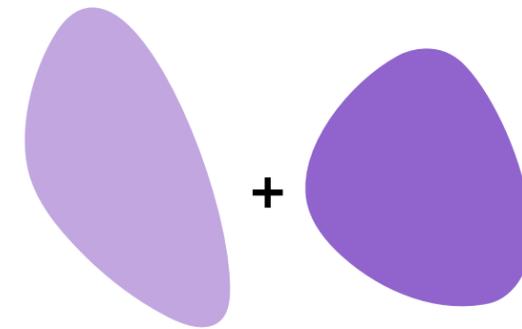

Do Not angle the logo

These are just a few of the do not dos to our logo, but basically, leave it as it is and don't change or add anything to it.

the elements

Our Butterfly is made up of two unique shapes that represent two different people that make up a hopeful Flutter couple when they come together.

Currently The Butterfly is only approved to used by the brand team

The Butterfly

This mark is special to us. It not only represents our company but it represents how we feel about the business we are in. Only in instances where there is enough supportive branding is the butterfly allowed to be used or as a central element.

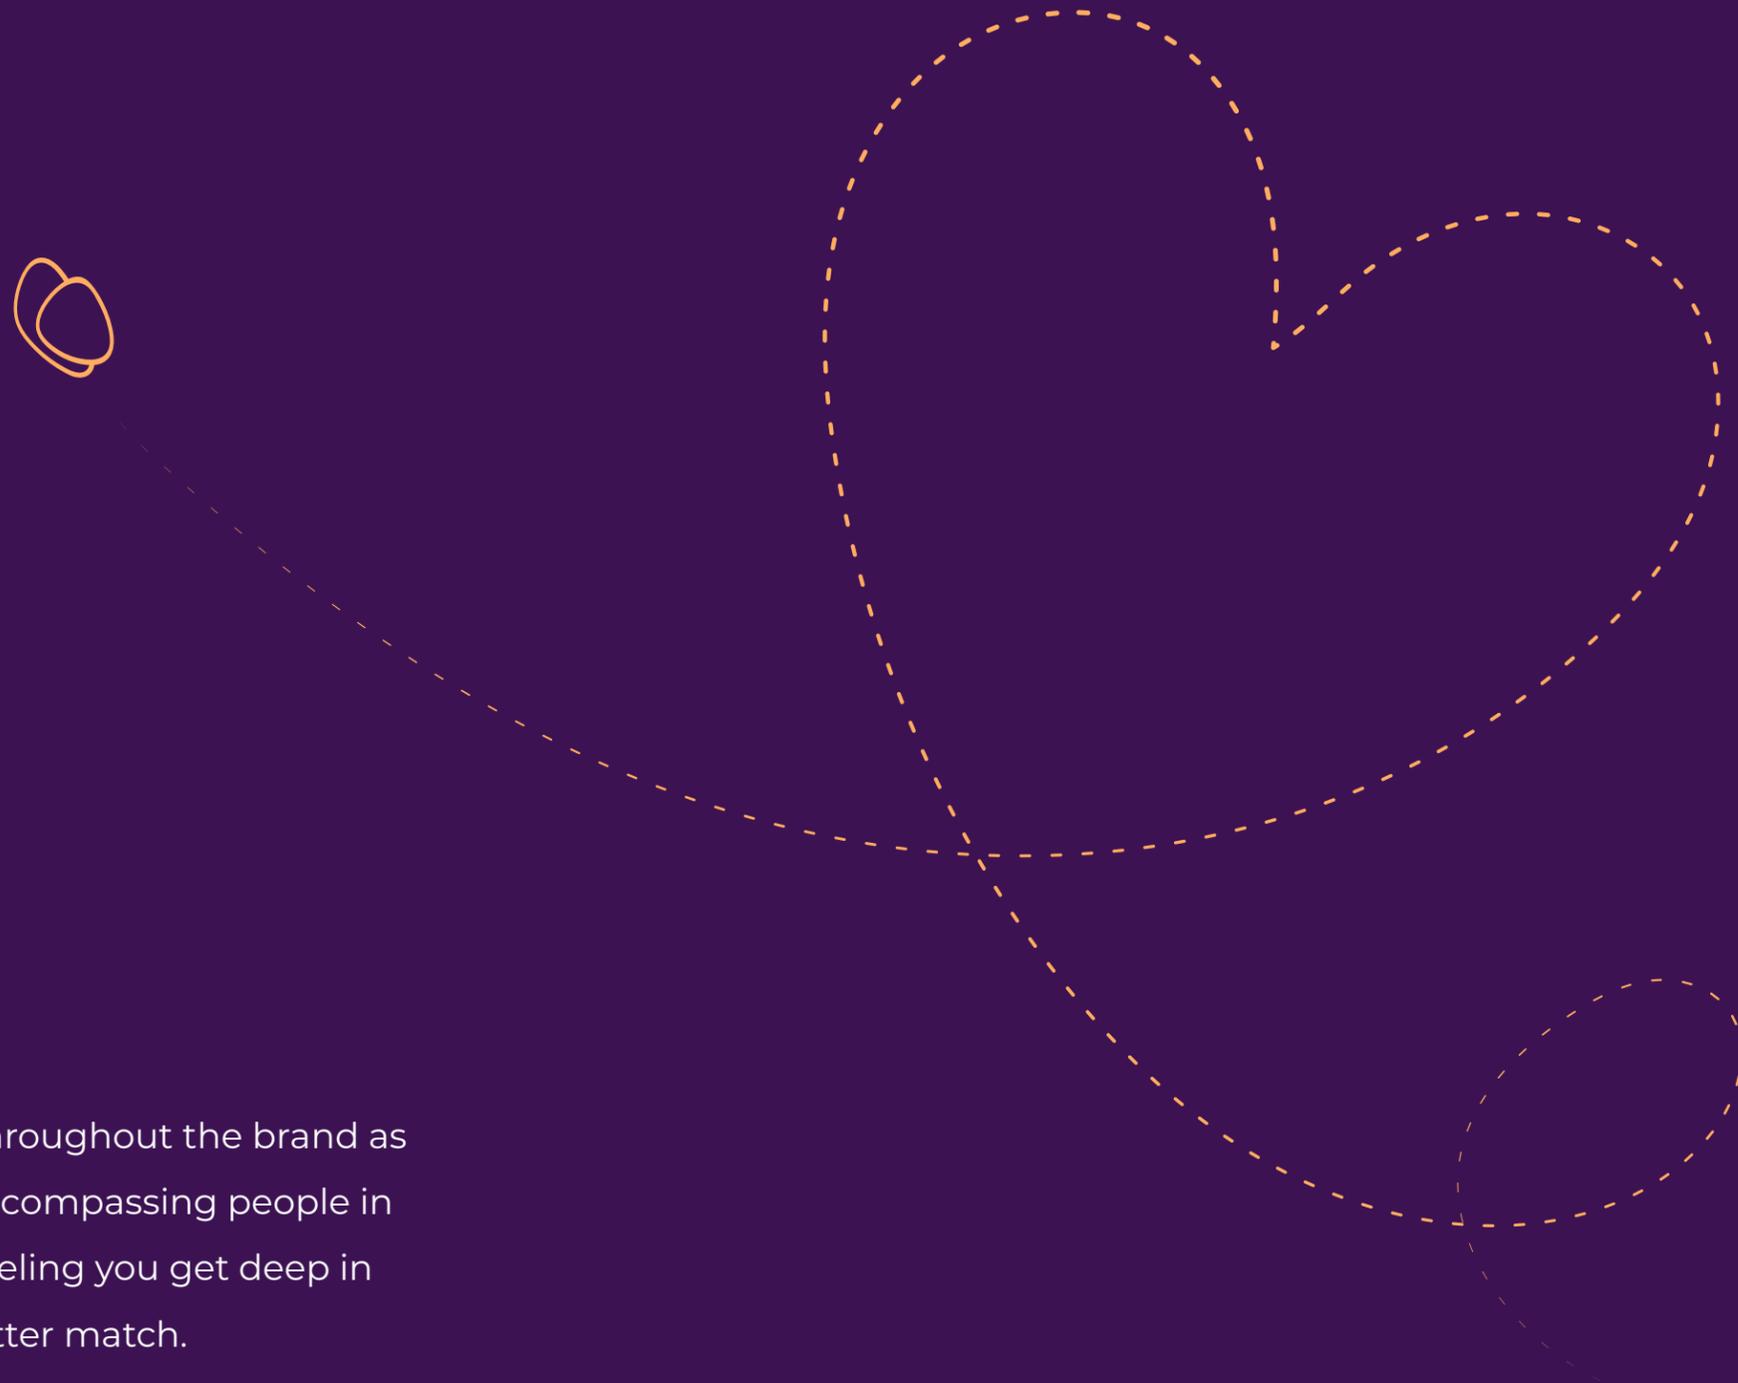

logo tagline

Applying our tagline

For communications outside of brand properties our tagline should be used to help educate viewers what Flutter is. To create a sense of urgency our tagline is always used with an italic font.

If our logo will be less than 2 inches, the tagline should be removed. The same boundary rules apply but this time from the bottom of the tagline.

The flight path

The Butterfly flight path is used throughout the brand as an ascent element, sometimes encompassing people in our photography to signify that feeling you get deep in your stomach when you get a Flutter match.

logo colors

Strong, yet soft

Purple combines the calm stability of blue and the fierce energy of red, which in a nutshell is Flutter.

our typeface

Montserrat

Montserrat is a blend of strong corners with some soft edges and rounded corners that help play into our balance of masculinity and femininity within our brand.

our photography

Ready. Set. Date!

Flutter is all about creating a time when everyone is present and engaged. These moments create a buildup of excitement and anticipation of meeting someone for the first time. Our photography approach is to show those feels and also focus on the user.

our boilerplates

About Flutter

When we talk about Flutter and how we are different than other dating apps, these are our approved boilerplates in three different lengths.

25 word

Flutter is a fun, fast-paced dating app that only works on Sundays with all matches and messages expiring at midnight! For more info, visit flutterdating.com.

50 word

Flutter is a fun, fast-paced dating app that only works on Sundays with all matches and messages expiring at midnight! This weekly, coordinated digital experience where everybody is active and responsive brings back the excitement of dating. Ready. Set. Date! For more info, visit flutterdating.com.

100 word

Flutter is a fun, fast-paced dating app that only works on Sundays with all matches and messages expiring at midnight! Today it has become harder than ever to connect with others. We believe that technology can be used to build digital social experiences that bring delight and excitement. Our mission is to create a platform for coordinated events that help facilitate human relationships from online to offline. Through empowerment and presence, Flutter aims to reinvent and improve social technology, starting with dating. For more info, visit flutterdating.com.
